SUMMARY

Trainee Software Engineer at YuppTV with a front-end development background, building full-stack web apps, developer tools and TV apps. Hands-on with React, Next.js, TypeScript and Supabase on the web, Kotlin and Jetpack Compose on Android TV, and the VS Code Extension API. Designed and shipped six personal projects end to end, including a published VS Code extension with 300 installs and a 5.0 rating on the Visual Studio Marketplace.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Kotlin, HTML, CSS, SQL, C, C++
Frontend: React, Next.js, Tailwind CSS, Framer Motion, Zustand, Vite, Jetpack Compose
Backend & Data: Node.js, Express, Flask, REST APIs, Supabase, PostgreSQL, MySQL, Room
Tools & Platforms: Git, GitHub, VS Code Extension API, Playwright, FFmpeg (WebAssembly), Vercel, Render, Figma
AI Tools: Claude, ChatGPT, Google Gemini, Antigravity

EXPERIENCE

Trainee Software Engineer, YuppTV 2026 – Present

- Take an end-to-end approach to project development, from understanding requirements and planning to implementation, testing and deployment.
- Building a complete project and solving real-world challenges while learning how a streaming product runs, through tickets and code reviews.

DTP Operator, Turito Pvt Ltd, Hyderabad Feb 2021 – 2023

Front-End UI Developer, Syntax Tree Software Solutions Pvt Ltd, Hyderabad May 2016 – Jul 2017

- Worked on front-end user interfaces, with close attention to spacing, interface states and the small details users notice.

PROJECTS

CollabX – Creator & Brand Collaboration Platform collab-platform-ruddy.vercel.app

Next.js, React, TypeScript, Supabase, PostgreSQL, Resend

- Designed and built a full-stack marketplace where brands find creators, send proposals and chat, with separate Creator and Brand dashboards.
- Implemented a match score from 5 factors (niche, followers, engagement, rating, tags), a 9-stage collaboration workflow, Supabase Auth with Row Level Security across 5 tables, Realtime chat and 5 email templates via Resend.

Notion Sync – VS Code Extension Visual Studio Marketplace

TypeScript, Node.js, VS Code Extension API, Notion API

- Built and published an extension that syncs a project's README and docs folder to Notion pages with one command, with a daily sync reminder.
- Reached 300 installs and a 5.0 average rating (4 reviews); shipped 5 versions in two days based on hands-on use.

Website Extractor website-extractor-pi.vercel.app

Next.js, React, TypeScript, Express, Playwright

- Built a tool that opens any public URL in a headless browser and packages its colors, fonts, images, content and tech stack into a one-click ZIP; frontend on Vercel, extraction API on Render.

Browser Video Editor video-editor-mauve-pi.vercel.app

React, Zustand, FFmpeg (WebAssembly), Canvas, Tone.js

- Built a video editor that runs in the browser: multi-track timeline, text and shapes, 11 transitions, undo and redo, and MP4 export processed locally with FFmpeg WebAssembly.

MyOTT – Android TV Streaming App github.com/Soundaryam94-dev/androidtvottapp

Kotlin, Jetpack Compose, Retrofit, Room, ExoPlayer (HLS)

- Built a remote-friendly streaming app with D-pad focus navigation, TMDB content over REST, a local Room cache for watch history and My List, and HLS playback that resumes from saved progress.

TicTacToe – VS Code Extension Visual Studio Marketplace

TypeScript, VS Code Webview API

- Published a two-player game that opens in an editor panel from a single Command Palette command, built as one self-contained page with no runtime dependencies.

EDUCATION

B.Tech, Electronics and Communication Engineering, SVCE College of Engineering, Srikakulam (69.6%) 2015

Languages: English, Telugu
